Business Model Canvas (BMC) - YallaRent

Strategic Frame

- Model: Hybrid B2C + P2P + B2B campus partnerships.
- Geographic posture: pilot-first, then multi-campus expansion.
- Core demand base: 1,530,230 enrolled students in Algeria (2024/2025) S09.

9-Block Canvas

1) Customer Segments

Primary Segment

- Student renters needing temporary access to equipment.

Secondary Segment

- Student providers monetizing idle assets (P2P supply).

Institutional Segment

- Universities/residences for service partnerships and student support layers.

Quantified market framing

- TAM baseline: 1,530,230 students S09.
- SAM (pilot-to-growth focus): 382,558 students (25% of TAM, internal targeting) A02.
- SOM target (active renters):
  - Y1: 1,200 A07
  - Y5: 47,500 A07

2) Value Propositions

For student renters

- Lower upfront cost than buying full sets.
- Flexible durations (days to semester).
- Trust stack: verification, deposits/protection, and condition workflow.

For student providers

- Earn from unused items with no commission on transactions A28.
- Structured listing/booking/return process.

For universities

- Better student living support with less direct capex.

- Operational visibility through partnership models.

3) Channels

- Mobile-first web platform (aligned with 54.8M mobile connections and 76.9% internet penetration) S15, S16.
- On-campus ambassadors and student clubs.
- Campus-adjacent hubs for physical handover.
- Social channels for demand capture (25.6M social identities) S17.

4) Customer Relationships

- Self-serve onboarding + verification workflow.
- In-app support for booking/returns/disputes.
- Trust loops: ratings, repeat-user perks, and incident transparency.
- Dedicated B2B account handling for campus partners.

5) Revenue Streams

All in DZD and linked to assumptions A31-A37.

Stream	Y1 (AY26/27)	Y5 (AY30/31)	Driver
Company-owned rentals	12,960,000	198,000,000	A08 x A09
Delivery fees	756,000	16,074,000	A10 x A11
Damage protection fees	777,600	17,316,000	A12 x A13
Provider subscriptions	1,800,000	54,000,000	A14 x A15
University partnerships	3,000,000	67,200,000	A16 x A17
Maintenance/repair services	540,000	9,600,000	A18 x A19
End-cycle resale	1,760,000	26,000,000	A20 x A21
Total	**21,593,600**	**388,190,000**	Derived

6) Key Resources

- Inventory pool and refurbishment pipeline.
- Campus hub infrastructure and handover SOPs.
- Identity, booking, deposit, and dispute software stack.
- Partner network (delivery + repairs + institutional liaisons).
- Compliance controls for personal-data processing S22, S23.

7) Key Activities

- Inventory sourcing, quality checks, and lifecycle management.
- Demand forecasting and pricing optimization by campus.

- Verification, moderation, and trust-safety operations.
- Hub operations and logistics orchestration.
- B2B partnership acquisition and retention.

8) Key Partners

- Universities and student services offices.
- Local logistics providers.
- Local repair and refurbish workshops.
- Identity and payment ecosystem partners.
- Public startup ecosystem support channels S24.

9) Cost Structure

Main cost buckets (base case)

- Inventory procurement and refurbishment.
- Hub operations and storage.
- Payroll.
- Technology/cloud/payments.
- Marketing and campus acquisition.
- Maintenance and after-rental service.
- G&A, legal, compliance.

Cost profile (base case)

Year	Total Operating Cost (DZD)
AY26/27	25,800,000
AY27/28	48,300,000
AY28/29	83,000,000
AY29/30	133,000,000
AY30/31	201,300,000

(Internal model values anchored to A25, A26, A27.)

Unit Economics Snapshot (Base Case)

Metric	Value (DZD)	Link
Avg company-owned rental fee per order	1,800 (Y1)	A09
Avg variable fulfillment + wear cost per owned order	1,030	internal allocation from cost model

Metric	Value (DZD)	Link
Contribution per owned order	770	derived
Contribution margin	42.8%	derived

Strategic Coherence Check

- The no-commission P2P rule is preserved via subscription-led monetization A28.
- Expansion remains pilot-first with progressive campus count growth A06.
- BMC financial logic is aligned with the Business Plan base/conservative/upside framework.
